

Deer - Buck Firearms Season

Daily Bag Limit: 1

Opening Date: November 20

Closing Date: December 2

Only deer having one or both antlers more than 3 inches in length above the hairline are legal during the buck season (see concurrent hunting for antlerless deer during buck season on page 17).

Two deer may be taken with a gun or bow during the buck season -- the first deer must be taken on one of the following valid base licenses or license combinations: resident (Class X, Class XJ, Class AB-L, Class A-L, or Classes A+CS); or free license: (Military, Disabled Veteran, former POW or Senior Citizen); or nonresident: (Classes XXJ+CS/LE or Classes E+CS/LE). Underage residents and resident landowners (see page 7) may take a first antlered deer without a license. A second deer may only be taken with a Class RG, Class RRG stamp, or by resident landowners hunting on their own property.

A hunter may take no more than three antlered deer per calendar year in all archery and firearms seasons combined.

Legal firearms for hunting deer during the buck season shall include:

- a rifle using centerfire ammunition.
- a rifle using .25 caliber or larger rimfire ammunition.
- a muzzleloading rifle, with or without scope, and muzzleloading pistol of .38 caliber or larger.
- a handgun using a straight-walled case of .357 magnum cartridge or larger or a bottle-necked case of .24 caliber or larger. A Class A-1 handgun license is required.
- a shotgun loaded with solid ball ammunition.

Additional Buck Season Gun Stamps

Class RG and Class RRG

During a calendar year a resident may purchase only one Class RG stamp and a nonresident may purchase only one Class RRG stamp.

Only one deer may be taken with a Class RG or Class RRG stamp. The Class RG and Class RRG stamps must be purchased before November 20, 2006, prior to the opening of buck season. The Class RG and Class RRG stamps are valid for buck hunting in all counties open to buck season.

To take an additional deer, all residents except resident landowners (see page 7) hunting on their own land are required to purchase a Class RG gun stamp. All nonresidents are required to purchase a Class RRG gun stamp if they choose to take an additional deer. (See license requirements on page 8).

Hunting on the Class RG or Class RRG gun stamps can begin on the day after legally checking the first antlered deer.

Buck Firearms Counties

All counties except Logan, McDowell, Mingo and Wyoming are open.

 **Open:** Buck Firearms Season November 20 - December 2, 2006
(See page 12 for special public land regulations.)

 **Closed:** to all firearms deer hunting

Buck Firearms Season - Deer

Concurrent hunting during Buck Deer Season

Antlerless deer hunting is legal on private land in 37 counties or portions thereof during the buck season (November 20 thru December 2). To hunt antlerless deer during the buck season, a valid Class N or NN stamp is required for all hunters except for resident landowners (see page 7) hunting on their own land. Hunters may take only one deer per day, therefore, a buck and an antlerless deer may not be taken on the same day.

Small game hunting is prohibited during the first three days of buck season in all counties having a buck season; provided, waterfowl hunting is legal on lakes, rivers, and waterways during the open waterfowl season, bear hunting is legal in specified counties, and coyote hunting is legal. Small game hunting is legal during open small game seasons beginning November 23, 2006. While hunting small game during the buck season, No. 4 shot or smaller and slugs may be carried with a shotgun only if the hunter is legally hunting deer or bear.

A combination rifle-shotgun (over-under, etc.) is legal for deer hunting and concurrent small game hunting.

After killing the legal limit of deer, a hunter shall not be afield with any firearm with solid ball ammunition or shot shells containing larger than No. 4 shot unless legally hunting bear. Waterfowl hunters may use nontoxic shot larger than No. 4.

It is illegal to hunt small game during the buck season with any centerfire rifle, with any rimfire rifle larger than .22 caliber, or with a shotgun using solid ball ammunition or shot larger than No. 4 in a county that is not open to buck season.

Archery hunting for deer is legal during buck season. A bow may be substituted for a firearm to take antlered deer, or if hunting on a Class N or NN stamp, antlerless deer may be taken during the buck season on private land in specified counties (see pages 10-12 and 15).

All persons hunting during a deer firearms season, except those engaged in farming activities on their own land and waterfowl hunters, must wear at least 400 square inches of blaze orange as an outer garment.

Hampshire County Containment Area

Includes all portions of Hampshire County north of US Route 50.

Carcass Transport Regulations

Hunters are prohibited from transporting dead cervids or their parts beyond the boundary of the containment area except for the following portions of the carcass:

1. meat that has been boned out,
2. quarters or other portions of meat with no part of the spinal column or head attached,
3. cleaned hide with no head attached,
4. clean skull plate (no meat or tissue attached) with antlers attached,
5. antlers with no meat or tissue attached, and
6. finished taxidermy mounts.

Hunters may transport cervid carcasses that were not killed inside the containment area through the containment area.

Baiting and Feeding Regulations

It is illegal to bait or feed cervids or other wildlife in the containment area except that it is legal to feed birds within 100 feet of an occupied dwelling (see page 9).

Special Seasons and Restrictions

Wilson Cove Deer Study Area and Hillcrest Wildlife Management Area

Wilson Cove Deer Study Area located in Hardy County on the George Washington National Forest and Hillcrest WMA, located in Hancock County will have a buck muzzleloader season November 20 – December 2, 2006. Only single shot muzzleloaders, including “in-lines”, of .38 caliber or larger are legal. These two areas will not be open to the traditional rifle buck firearms season. All muzzleloader license requirements apply. (See pages 8, 12 and 20). The annual antlered deer bag limit is one deer for archery and muzzleloader seasons combined.

Older-aged Deer Wildlife Management Areas

All antlered deer taken on Beech Fork Lake, Bluestone Lake, Brunsville Lake and McClintic WMAs and Coopers Rock State Forest must have a minimum outside antler spread of 14 inches (ear tip to ear tip). The annual antlered deer bag limit is one deer for all archery and firearms seasons combined.
